Crimp-On Cable Pulling Eyes and Accessories

Condux Crimp-On Cable Pulling Eyes for telephone and power cable are the ultimate solution in cable pulling eyes. These pulling eyes form a connection as strong as the cable itself. The entire cable, jacket and conductor is used which reduces the risk of cable deformation during pulling. When properly installed, Crimp-On Pulling Eyes are virtually impossible to pull off and also seal the cable against both water and air intrusion. Typically factory installed, the pulling eyes can also be field installed with a special crimping tool, available from Condux.

The Condux Crimp-On Cable Pulling Eyes Catalog lists complete information on different styles of pulling eyes available and serves as an ordering guide. It is available through Condux Customer Service or from your local manufacturer's representative. Call Condux at the numbers listed on the bottom of this page to order the Condux Crimp-On Cable Pulling Eyes Catalog.
