

VERIZON PRODUCT EVALUATION

Product Evaluated: Grimeaway™ Multi-Purpose Wipes

Company: Polywater

Evaluation period: 6-5-09 thru 7-1-09

Recommendation: Grimeaway is a better all purpose hand/ tool cleaner when compared to Rainbow Knuckles Towels: Go-Jo FAST WIPES, ITW Dymon SCRUB, Klein Tools Klein Kleaners, Heavy Duty Towels, and others.

Product functionality: Grimeaway wipes clean more types of grime than competitors. In almost all cases it replaces harsh solvents effectively. Grime-Away towels feature a textured side to quickly remove heavy greases, dirt, and gel. The other side of the towel is less abrasive side works well on the hands while being gentle on skin.. Lastly there is no need to rinse with water after using a Grimeaway wipe.

General product description: Grimeaway is water base cleaner with lanolin, so it moisturizes and softens skin rather than removing oils from the skin. This helps to alleviate the dry, cracked skin so common among technicians. This may not seem like a big deal but it is. Also if the towels dry out from leaving the canister open you only have to add to the container and they become usable again. If most of alcohol /solvent based cleaners we currently use dry out they are no longer usable.

Evaluation type: Field trial

Overall Results: Grimeaway is a better alternative to alcohol/solvent based cleaners currently being used.
