

POLYWATER[®] LUBRICANTS WORK!

Benefits to using cable pulling lubricants

1. Use Polywater[®] SPY lube on enhanced THHN[®] wire or other types of THHN[®] in PVC conduits and lower tension by 70%.
2. Use Polywater[®] SPY lube on enhanced THHN[®] wire or other types of THHN[®] in Steel conduits and lower tension by 40%.

Polywater[®] SPY Lubricant
with THHN and Enhanced THHN Wire

No Mess

Why use Polywater[®] when installing wire?

1. Cable/wire is very expensive and costly to replace.
2. Cable/wire may be damaged by excessive tension and sidewall pressure.
3. Polywater[®] lubricants make cable installation easier and put less wear and tear on cable installation equipment.
