Wheeler Reeler™

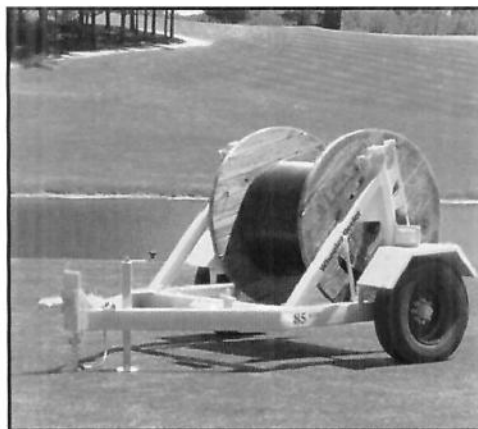

HYDRAULIC REEL TRAILERS

We have a variety of **Wheeler Reeler** models to choose from: The Model 85, 60, and the 35 Series. The Model 85 and 60 share the same size frame, but the Model 85 is beefed up to handle a heavier load. The Model 60 has been our most popular model, as it is able to handle a large majority of the spools common today. The 35 Series is designed for those who need a trailer only to handle lighter, smaller spools and do not want to pay for the extra capacity of a larger trailer. Specifications on the current models are listed below:

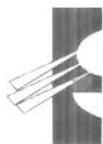

Wheeler Reeler™ Hydraulic Cable Reel Trailer
